Notice of Refrigerant Price Increase

FSW BULLETIN

We have been notified by our suppliers of a refrigerant price increase and we have no option but to pass this on effective from **1st January 2016** for all despatches received on or after this date. Please see details below.

2016 will see the move into the first quota step down under the F-Gas regulations.

This step down limits the amount of HFC's placed on the market by their CO² equivalent.
